Dear GM&S LLC:

On August 7, 2006 the Fillmore Field Office (FFO) of the Bureau of Land Management (BLM) received a copy of your Plan of Operations on the Utah Division of Oil, Gas and Mining (DOGM), Notice of Intention to Conduct Small Mining Operations form. This operation has been assigned BLM serial number UTU-079869 please use this number to refer to the project from now on.

This letter is to inform you of the present status of the application and the additional steps to complete the process.

At this time the BLM Specialists are analyzing the proposed project for potential impacts. Additional steps that need to be completed are as follows:

- Completion of the environmental review required under the National Environmental Policy Act (NEPA)
- Completion of the appropriate NEPA documents
- Provision of a 30 day comment period required per 3809.411
- BLM completes review of public comments on the plan of operations
- Plan of Operations is approved

As discussed in the meeting with Mr. Smith this process will extend beyond the 30 day period mentioned in 3809.411.

If you have any questions or concerns please contact me at (435) 743-3124.
